

Dear Supporter,

On August 8th, 2020, we are hosting the **7th Annual Fighter Jhett Classic, Charity Golf Outing** at Winding Ridge Golf Club. All proceeds from the event will fund critical research for Prader-Willi Syndrome (PWS), a diagnosis Jhett received when he was 23 days old.

Prader-Willi syndrome is a genetic disorder that occurs in approximately one out of every 15,000 births. PWS is recognized as the most common genetic cause of life-threatening childhood obesity. PWS is a complex and challenging disorder. A defining symptom of PWS is hyperphagia, or, an insatiable appetite. **Children with PWS feel hungry all the time, regardless of how much they eat.** This need to fill the void of hunger consumes every moment of their life, leaving themselves and care givers, prisoner to the syndrome. Dangers of food seeking and complications of obesity contribute to a shortened life span.

Currently there are few treatments and no cure for Prader-Willi Syndrome.

BUT WE HAVE HOPE!!!

As the parents of a remarkable and inspiring child with PWS, we decided to be as proactive as possible in helping to fund research for this challenging disorder. We believe that current research on PWS will provide new therapeutic options for Jhett and will dramatically change the outlook that we were given, just 7 years ago.

Your participation is critical to our success and we would be thrilled if you would consider becoming a sponsor of our event. With sponsorship, you will gain marketing exposure for yourself or your business and have the potential to reach countless others based on your sponsorship level.

We appreciate you reviewing the sponsorship levels outlined and are excited in partnering, to change the lives of so many. Thank you in advance for helping to make the 7th Annual Fighter Jhett Classic, Charity Golf Outing a success and ensuring that Jhett, and all of those living with Prader-Willi Syndrome, will one day be able to live life FULL.

Sincerely,

Jen and Jarrod Lee
Parents to Jhett, 7 years old with Prader-Willi Syndrome
