

Calling All Families of 3-12 year olds!

Participate in research with the Neurodevelopment Lab

* Currently enrolling:

Siblings and kids with PWS ages 3-12 years

- Take part in **one-time visit research study** that will look at how eye movements measure interest in food (takes 20-30 minutes).
- For more information, please contact Dr. Anastasia Dimitropoulos and the PRETEND Research Team at **neurodevelopmentresearchlab@gmail.com** or by calling **(216) 368 - 0112**.
